DENUNCIATION AND DEFIANCE AND WARNING

These Are the Keynotes of the Meeting of the Republican County Committee of Fayette.

WHAT DEMOCRATIC TARIFF DID

To Us in Connellsville Coke Region in the Early '90s Viciously Portrayed by Some of Speakers and But Farth Specifically in the Resolutions.

The numbers and the enthusiasm of those who attended the meeting of the Republican County Committee at Uniontown on Saturday afternoon indicate that Pittman has not gained much headway and that Fayette county stands firmly upon its record as a dependable Republican county. The meeting, which was held in the large court room, was called for a twofold purpose, namely, to adopt new rules and to fill the vacancy caused by the withdrawal from the ticket of Peter J. Gupat, who has removed from the First Legislative District since being nominated.

Chairman A. F. Williams called the meeting to order and stated its object. John Duggan, Jr., the Secretary, called the roll. The new rules were then read and approved without dissent. The committee then adjourned in a body to the Grand Jury room, where, on motion of Henry D. Gore, William M. Thompson of Menallen township was unanimously reported as the Republican candidate for Assembly in the First District.

This action being reported to the general committee, Charles J. McGill of Dawson, offered resolutions and Secretary Duggan read them in a clear, ringing voice. The hearty manner in which the resolutions were applauded indicated that they reflected the sense of the meeting and the sentiments of loyal Republicans in the county. The resolutions are elsewhere printed. Ex-Judge E. H. Report opened the speaking on the resolutions. He and the speakers who followed developed the fact that the public use of Fayette county, he said, "are not of the fair-weather sort. Through many years and under stress and strain they have marched undaunted to victory or defeat, and in this present campaign they march undismayed by either the open hostility of their old-time opponents or the false promises of these disloyal."

"My memory goes back to every Republican administration this country ever saw. I remember the fact that 35 years or more the Republicans of Fayette county were loyal to the fifth without hope of reward. Year after year they went to the polls and re-elected their leaders. The fact that the candidates of the Republican party with no hope of success. It was not until Republican principles made effective by legislation, broadened and widened until they took in Fayette county, and our industrial interests began to assume magnitude, as they did in 1892 and '96, that we carried the county by a large majority; and I say to you that the success of the Republican party today depends on the fact that upon the cars which which husband the rich, the people and give to the laboring man his due merit and reward; for the laboring man will determine whether Republican success in Fayette county will again be possible this year. He will determine if you truly on just three points:

1. Our candidates;
2. His title to his nomination; and
3. What he stands for.

"President Taft has been in public life for many years. His character and record are known to all men who desire to be informed. He is just the best, and that you may expect from him in the future in case you elect him. For nearly ten years, the best years of his life, he was engaged in the public service alongside of Theodore Roosevelt. For seven years of that time he was a member of the Roosevelt Cabinet and what Roosevelt thought of him may be gathered from the fact that when he was absent from Washington he usually left William H. Taft sitting on the lid, and Taft sat on the lid with some effect. In 1908, pursuant to his repeated statements that under no circumstances would he again be a candidate for the Presidency, it became necessary for the Republican party to suggest a successor to Theodore Roosevelt. Mr. Taft was not my choice, and possibly many before me felt as I did. Mr. Taft's lifelong ambition had been to go on the Supreme Bench of the United States; but at the request of his friend, Theodore Roosevelt, he became a candidate for the Presidency, and was made the Republican candidate. Mr. Roosevelt at this time said in substance that in whom, in my opinion, the best character, William H. Taft was the best-equipped man in the United States for the Presidency; and two years later, when he was engaged in a political struggle in New York and desired Mr. Taft to help, he repudiated his statements and recommendation of 1908. It was not until 1912, when he himself sought the nomination in opposition to Taft, that he found him puzzle-witted and prone to err."

"Concerning Mr. Taft's nomination, Continued on Page Four.

DOG SLAIN FOR BITING LAD.

Jeremiah Lowmy's Canine Shot by Police for Wounding Joseph May.

Joseph May was bitten on the shoulder by a bull-dog said to belong to Jeremiah Lowmy, yesterday afternoon, and was sent to the Connellsville Hospital, where the wound was sutured. The dog was brought to the police station this morning by Lowmy, who instructed the officers to kill the canine. Lowmy paid for the "job."

Young May, chasing a football, fell in the street, and the dog playfully running after the boy, bit him on the shoulder.

FINAL TAB OF CANDIDATES FOR CONGRESS SHOWS FLINN MONEY

Under Corrupt Practices Act, Nominees and Others File Accounts

The final accounts of candidates for Congress were made public on Saturday. These candidates complied with the Corrupt Practices act by certifying to the amount they expended in their campaigns. The most liberal amount any candidate can spend is \$5,000 and in several instances the "dancer line" was almost reached. Flinn money was sent into almost every Congressional district of Pennsylvania, supposed for use in the fight for National delegates, but in some districts regular Republicans were opposed by candidates friendly to Flinn. Very few of his favorites won nomination.

In the Twenty-second district—A. L. Krister, Republican, nominated, \$5,942; E. E. Robbins, Republican, \$4,262; J. David McDuckin, Republican, \$232; Curtis H. Grege, Democrat, incumbent, re-nominated, \$116. Flinn's contribution, through Herkey H. Boyd, was \$300.

Twenty-third district—T. C. Crago, Republican, incumbent, re-nominated, \$12,141; E. H. Hood, Republican, \$2,979; Woodin M. Carr, Democrat, not in.

Twenty-fourth district—Charles Matthews, Republican, incumbent, re-nominated, \$1,335; Robert K. Allen, Republican, re-nominated, \$240 in the district through J. Vennin Clarke.

Twenty-fifth district—Charles Matthews, Republican, incumbent, re-nominated, \$1,335; Robert K. Allen, Republican, re-nominated, \$240 in the district through J. Vennin Clarke.

1,000 SEE FIREMEN IN STORE OF THE KOBACKER BROS.

Blaze Starting in Basement, Causes Little Damage, None Whatsoever to Stock.

More excitement was caused at 10:30 o'clock, Saturday night, by a fire in the basement of Kobacker's store, North Pittsburgh street. Prompt work of firemen and clerks in the store confined the blaze to the basement, in a room formerly occupied by a barber shop.

The fire did not reach the upper floors of the building and caused no damage to the stock. The basement contained rubbish. The fire is believed to have been caused by a "live" cigar butt, dropped by workmen.

More than a 1,000 were attracted by the blaze. The fire whistle was not sounded. It has been out of operation a week.

There were less than a dozen customers in the store when the fire started. Many of the clerks had gone home. One of the women clerks was so frightened she required the services of a physician at her home.

"Hello Girl" Wants \$10,000 for Bumping Nose in Bell Exchange

Miss Cornelia Adams, formerly operator in the Connellsville exchange of the Bell Telephone Company, objects to bumping her nose on a volunteer. Together with her father, Walter J. Adams, Miss Adams is plaintiff in a suit for \$10,000 damages against the Central District & Printing Telegraph Company, the Bell. The suit was brought in Pittsburgh courts. Miss Adams declares that she was

A Plain Statement of Plain Facts for Plain People.

The Fayette County Republican Committee cordially and earnestly invites the voters of Fayette county to come and reason together concerning the political issues of the pending Presidential campaign. Let us consider the situation calmly, judiciously and dispassionately, without prophecy or prejudice, bearing in mind that it is "a condition and not a theory that counts" in the language of the first and greatest Declaration of Independence, "Let facts be submitted to a candid world."

It is a fact that the coke business of the Connellsville region regulates the prosperity and makes or mars the happiness of the people of Fayette county. The coke business depends upon the iron business; the iron business upon the steel business; the steel business upon the shipbuilding business. There is no escaping the conviction that THE FOUNDATION OF OUR PROSPERITY RESTS UPON THE TARIFF.

We are then headed THE GREATEST MARCH PROSPERITY EVER MADE IN THE HISTORY OF THE NATION. Under the Republican party and its policies, financial and industrial, that march ensued without a break save and that caused by the Money Panic of 1907, which was due to Big Stick statesmanship on the part of the same Theodore Roosevelt who now seeks the Presidency regardless of his own solemn pledge in violation of the unwritten law against a Third Term and in traitorous defiance of his moral obligations as a fairly defeated candidate for the Republican nomination to Taft and Sherman.

THEY TOLD US THE SAME THING IN 1907. The slogan was, "We are going to give you a political change. They elected a Democratic President and a Democratic Congress, and the latter proceeded to revise the tariff on precisely the same lines as they have now revised it. If the people afford them another opportunity.

The result is painful to recall. To those who knew it, it is now seen as a nightmare. Industries have shut up shop. The short and feverish period of Political Unrest was followed

EX-STANDARD OIL EMPLOYEE TELLS OF ROOSEVELT "ADS"

Foreign Language Newspapers Given \$5,500 for Space Using Votes for Hill Moose Delegates.

United Press Telegram.
WASHINGTON, Oct. 7.—Lewis Hammerling, President of the American Association of Foreign Newspapers, was the first witness before the Clapp committee today. He was formerly employed by the Standard Oil Company. Senator Clapp asked Hammerling if he had secured advertising from candidates in the pre-convention campaign. Clapp explained that the committee could not delve into the post-convention fight.

"Mr. Roosevelt's manager advertised in the foreign newspapers before the convention," said Hammerling. "He paid \$5,500 for space. The advertisements were for men to vote for Roosevelt delegates."

Colonel Hannan, Lafayette's secretary, followed Hammerling and presented Lafayette's accounts. Hannan said Charles R. Crane had given \$5,184 additional to the Chicago headquarters of Lafayette, making Crane's total contribution to Lafayette \$25,681. Hannan denied that Crane gave Lafayette \$70,000, as asserted by Theodore Roosevelt. He said other money in several States was given, but he had no records. More money was raised in Ohio, Hannan gave the names of persons who would know of such contributions.

"The expenses of the California campaign," said Hannan, "largely were paid by Rudolph Spreckles, who also gave \$2,500 to Lafayette, personally. \$400 was received from another San Francisco man, whom I do not know."

Charles R. Crane followed Hannan on the witness stand. Crane said he gave \$25,681 to the Lafayette campaign.

A straight issue of veracity was raised before the committee regarding the story that J. Pierpont Morgan was asked for more money by President Roosevelt in 1907, and that Roosevelt took a "kick" on the money. The whole affair was put up by Wayne MacVough, who previously denied he was the source of the tale. Morgan said the story was of whole cloth.

Charles Edward Russell, Socialist candidate for Governor of New York, testified he was told the story by Jackson C. Welliver, a reporter. Welliver, who was at the press table reporting the hearing, immediately demanded to be sworn. He stated the tale was correct substantially and that he got it all from MacVough. Senator Clapp said MacVough would be summoned at once. This afternoon, Oden Mills, of New York, and William Smith, of B. Scott, of West Virginia, were waiting to be examined.

by a long period of restful but bitter repugnance. Three-fourths of the coke ovens in the Connellsville region shut down, and the bright sunshine of the day skies melted at misery. The condition here was but a reflection of that in every industrial center. Thousands of idle men sought work in vain while their families hungered. The Democratic Tariff Experiment brought desolation and despair upon the country. THESE ARE NAKED FACTS.

In 1896 a now heresy presented itself. Free Silver dominated the political situation. Despite the terrible experience through which the country was passing, the Tariff became a secondary issue, thanks to the cunning leadership which sought a new issue that would make the people forget the Democratic Tariff. Fortunately for the people, it was afterwards demonstrated, the Republicans won and the country's business was promptly and firmly fixed upon a Gold Standard and Protective Tariff basis.

Then began THE GREATEST MARCH PROSPERITY EVER MADE IN THE HISTORY OF THE NATION. Under the Republican party and its policies, financial and industrial, that march ensued without a break save and that caused by the Money Panic of 1907, which was due to Big Stick statesmanship on the part of the same Theodore Roosevelt who now seeks the Presidency regardless of his own solemn pledge in violation of the unwritten law against a Third Term and in traitorous defiance of his moral obligations as a fairly defeated candidate for the Republican nomination to Taft and Sherman.

MAPS AND PROFILES OF LOCAL DIVISIONS, B. & O., IN REVISION

Corps of Eight Engineers Here to Bring Work Up to Date.

CHIEF COLES IS IN CHARGE

Pittsburg Line to be Modified First. Then Work on Connellsville to be Taken Up; Estimated Eight Months Required to Complete Task.

Maps and profiles of the Connellsville and Pittsburg divisions of the Baltimore & Ohio railroad are being revised and brought up to date by a corps of eight engineers who have been stationed in Connellsville. Changes and alterations since the original profiles were prepared will be determined on the maps. Officials declared today, the engineers are not working on proposed extensions of the Baltimore & Ohio in the Connellsville region.

The corps of eight is in charge of W. C. Coles, chief engineer. Four quarters have been opened on the fourth floor of the First National Bank building, West Main street. Coles said today, from six to eight miles of his section will be revised the maps and make field surveys.

Engineers are working between Connellsville and Pittsburg and will require about three months to complete the task. As soon as Pittsburg division maps and profiles are revised the engineers will take up those of the Connellsville division which, it is said, will require five or six months. Hereafter, the engineers will be kept out of the Baltimore headquarters.

UNITED STATES TO INSPECT TRAINS FOR HEALTH OF PUBLIC.

Sanitary inspection of all trains and vessels interstate traffic is to be begun immediately by the United States Public Health Service. All commissioned medical officers of the service, when traveling under official orders, will inspect the sanitary conditions of conveyances, stations, terminals and wharves, and report to headquarters at Washington for action.

"It is contemplated," the Treasury Department announced, "that these reports will be published." Among the first to be considered will be immigrant trains. Ventilation on first class trains, absence of sanitary precautions on cars, fumigation and a host of other details affecting the health of travelers will be considered.

to spare for every man who wants it. Yet the Democrats say we need a change. They said the same thing twenty years ago. WE GOT THIS CHANGE. DO WE WANT ANOTHER?

These are plain facts for plain people. All the fine-spun arguments in the campaign will not change them. The Democratic party offers us nothing new. It is the same old party and the same old industrial doomsday, and if given the opportunity it will bring upon the country the same old conditions. This is not an idle dream or a political threat; it is the lesson of history, and, as such, we invite the open mind to its thoughtful consideration. It is wiser to judge a party by its PERFORMANCES rather than by its PROMISES.

Mathematically summed up, it may be said that a vote for Wilson is a vote for progress to poverty only; that a vote for Roosevelt is half a vote for Wilson and a whole vote for Republican party assassination; and that a vote for Taft is a vote for continued Republican rule and UNDISTURBED PROSPERITY IN THE CONNELLVILLE COKE REGION AND THE COUNTRY.

Therefore be it resolved by the Republican County Committee:

1. That we endorse the wise, patriotic and courageous administration of President Taft and the action of our Senators and Representatives in sustaining the policies of the administration and the principles of the Republican party.

2. That we pledge our support in the campaign to Taft and Sherman, and the Republican State, Congressional and Legislative candidates and appeal to all Republicans to rally to their support.

3. We denounce the action of nominees on the electoral ticket who are disloyal to Taft and Sherman in refusing to withdraw, and permit the substitution of loyal Republicans in their places, as being subversive of the spirit of our electoral system and an attempt to deceive and defraud the voters.

Any member of the party who rides on a street car or railroad train on Sunday is to be reported to the proper punishment. The big political parties now struggling for supremacy were denigrated vehemently for their alleged corruption. The conference went on record as standing opposed to "political corruption."

BEARDS, SUNDAY TRAVEL AND RIBBONS BARRED AT MEETING

Free Methodists at Belleverton on Record as to Lack of Personal and Moral Cleanliness.

The close of the annual conference of the Pittsburgh district, Free Methodist Church, at Belleverton, Saturday, was marked by the passage of striking resolutions. Personal habits of men and women members of the church were censured.

The men were admonished to pay closer attention to their personal appearance, and were urged to make more frequent visits to the barber. Long beards will not be tolerated, and the conference went on record as favoring the smooth-shaven face. In the audience were many women, and one speaker censured them for indulgence in "too many ribbons."

All forms of pleasure on the Sabbath were attacked. The "worldliness" of many of the younger adherents of the faith was the cause of a bitter attack by a delegate from the western part of the State who said the doctrine of "square the rod and spoil the child" was yet true, and urged the parents to use the rod more liberally. His suggestion was written on the minutes.

Any member of the faith who rides on a street car or railroad train on Sunday is to be reported to the proper punishment. The big political parties now struggling for supremacy were denigrated vehemently for their alleged corruption. The conference went on record as standing opposed to "political corruption."

Save Your Hair! Beautify It! Invigorate Your Scalp! Dandruff Causes Hair and We Can Prove It.

(Advertisement.)
Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or a loose or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you will actually see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp. A little Danderine now will immediately double the beauty of your hair. No difference how dull, faded, brittle and graying, just rub on a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be kept soft and wavy and have an appearance of abundance and incomparable lustre, softness and luxuriance, the beauty and sturdiness of true hair health.

Get a 25 cent bottle of Knowlton's Danderine from any drug store, or toilet counter, and prove to yourself tonight—now—that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all.

IF THIS IS YOUR BIRTHDAY.

Anniversaries will come but will only exercise your character and make it stronger. Worrying and impatience will bring on ill health and weakness. Pleasant times will come in your day, but you will form close friendships.

The age born today will be fond of dress and inclined to be vain. They will be too generous for their own property and although clever, will keep themselves short of money by their careless habits.

ROBBED OF \$100

But the Friend Who Was With Him Lost Nothing.

Two men from a Pennsylvania town went to the Fall House convention at Chicago. Both took approximately \$100 for expenses. The next day both men were roused in the train. One man lost \$100, the other didn't lose anything except a dollar or two in small change. Why? One had his money in currency; the other had a draft on a Chicago bank, and although it was stolen, the loss is the bank's, not the man's who carried it. If the draft is fraudulently cashed, the man who carried it is not liable. When you want to take or send money anywhere, safely, get a draft or money order from the First National Bank of Conneltsville.—Adv.

4,700 ROAD MILES REPAIRED

State Improves Highways by Ditching and Clearing Brush.

More than 4,700 miles of main highways in Pennsylvania have been repaired and put in good condition since the State took possession last June.

One of the first things done was to cut away the old-fashioned water ditches which were a serious impediment to travel throughout Pennsylvania. Thousands of these obstructions were sliced off and today there is not a "bank-yo-mum" on all of the 4,700 miles.

Next in importance was the ditching and underditching of roads, of which surface water was carried beside the roadbed and through culverts under the surface, instead of permitted to form ruts and gullies in the driveway.

Another distinct improvement was the removal of underbrush and overhanging trees that the sun could get at the roads and dry them quickly. Disturbance has been facilitated also by the substitution of the crowned surface for the old flat road, which held the water for days in low places. Most of the work was with materials at hand, but in some instances, macadam was used.

Anty Drudge—That's just the day I'll come. And I'll be there bright and early with a cake of Fels-Naptha Soap. The wash will be on the line before noon—and the ironing done before night."

If you found it easier to do your washing on Tuesday than on Monday, you would change at once. Sensible women would! Yet there are some women who still wash clothes in the old-fashioned, hard-rubbing way, just because their mothers taught them so.

Are you wearing out yourself and your clothes boiling and rubbing? Why not try Fels-Naptha Soap? It's the new, modern way of washing. Use it in cool or lukewarm water—no boiling or hard rubbing—and your clothes will be cleaner, whiter and wear longer.

TWENTY YEARS.

Makes a great difference in most women. They are troubled with "nerves"—they suffer from backache, headache, sleeplessness, a sensation of irritability or twitching, hot flashes, dizzy spells, or many other symptoms of female weakness. The local disorder and inflammation should be treated with Dr. Pierce's Favorite Tablets and the irregularity and weakness of the female system corrected and strengthened with Dr. Pierce's Favorite Prescription. The strain upon the young woman or the woman of middle age—upon the nerve and blood forming structures—may be too great for her strength. This is the time to take this restorative tonic and strength-giving nerve and regulator. For over forty years sold by druggists for women's peculiar weaknesses and distressing ailments. The one remedy so perfect in composition and so good in curative effects as to warrant its makers in printing its every ingredient on its outside wrapper. The one remedy which absolutely contains neither alcohol nor injurious or habit-forming drugs.

Following letter selected at random from a large number of similar ones and cited merely to illustrate these remarks:
"In the winter of 1908 I became greatly run down and irregular," writes Mrs. Henry Scott, of Swan Creek, Mich., Route 1, Box 52. "I slowly but surely grew worse, and at last resolved to apply to the doctor for help. The doctor said I had inflammation, enlargement and laceration. I was in bed eleven weeks and got no better. The doctor said I would have to have an operation, but to that I would not listen. My husband purchased two bottles of Dr. Pierce's Favorite Prescription. When I started to take this remedy I could not walk across the floor, but after doctor and took Dr. Pierce's Favorite Prescription. Only for it I think I would have been dead—I really believe it saved my life. I feel better now than I twenty years."

HAPPENINGS OF THE DAY IN THE BUSY MILL TOWN

Funeral of Jesse Morgan
Snead One of the Largest
Ever in Town.

FLORAL TRIBUTES WERE MANY

Scottdale Football Team Lost and
Scottdale Baseball Club Won; Several
Attended Conference at Blairsville;
Other Notes of Mill Town.

Special to The Courier.

SCOTSDALE, Oct. 7.—The funeral of the late Jesse Morgan, Snead, local agent of the Fayette County Gas Company, and member of the School Board, who died at his home on Market street, today morning, was one of the largest ever seen in Scottdale, according to the oldest residents. The United Brethren church, where the services were held by the pastor, the Rev. C. W. Hendrickson, was crowded to its utmost capacity and many were standing outside in the warm sunshine of the afternoon. The sermon was a fine one, and the music by a male quartet composed of Robert H. Burdick, William J. Canlin, William Clarkson and W. W. Eicher. The floral tributes were many and beautiful. The Fayette County Gas Company, Treat & Crawford, Superintendent Joseph Angelo, of Connellsville, the local employees of the company, the Odd Fellows, the Berean Bible Class of the United Brethren church and others were represented. The Odd Fellows were out in full force and marched to the cemetery. All the employees of the Gas Company in this district were present in a body, as well as the Berean Bible Class, and took part in the funeral. The pallbearers were Burgess J. F. Ellis, President of Council Walter L. Schaffer, John Peterson, David H. Fick, Aaron Mullen and Charles Palmer. The burial was in the Scottdale cemetery.

WILL BE AROUND.
The soccer football association at their meeting on Saturday evening took steps in ordering a new soccer ball from Thomas H. Rutherford, the agent for The Courier, and also appointed a committee who will go to the people of town for subscriptions to aid the team. On this committee, which starts out this evening, there will be C. H. Lee, John E. Howells, Benjamin S. Baldwin, Thomas Slaughter, Roger Vallance and George A. Raybould.

AN AUTUMN PARTY.
A number of friends were delightfully entertained at an autumn party by H. H. Rando at his home, near town on Saturday evening, a big bonfire being built and a large table being spread for lunch. Among those present were Mrs. H. H. Rando, Edward and Mrs. Clara Arbogast of Pittsburgh; Misses Nae Fitzsimmons, Helen Meyer, Ethel Shuler, Zana Ferts and Addie Rando, and Fred Engle, Carlisle Holt, Hilda Bennett, Walter Elburg, Walter Pretha. A very pleasant time was had, with a chicken dinner followed by a marshmallow roast.

HAS TYPHOID.
Miss Anna Loucks, daughter of the Rev. and Mrs. Aaron Loucks, and a member of the High School class, is ill of typhoid fever.

TEAM LOST.
South Greensburg's best and brown horse was too much for the Scottdale football team at South Greensburg at the opening game of the season on Saturday. The horse, Scottdale team, played with great pluck, however, and a clean game, but the opposition outwitted them and Scottdale lost 18 to 4.

BEAT JEANNETTE.
Scottdale battled Wever freely on Saturday and put Jeannette into the air in the first inning of the game at Ellsworth park. The locals gathered 18 hits for a total of 33 runs, Roberts holding the visitors to seven hits and two runs. The score:

Scottdale 18 18 18
Jeannette 7 7 7
Batteries: Roberts and Brown; Wever and Greider. Umpire—Hockenbury.

AT CONFERENCE.
Several Scottdale citizens attended the meeting of the Methodist Episcopal conference at Blairsville, Sunday. Among them were E. A. Humphries,

J. A. Barnhart, M. L. Hasness, Theodore Hockey, H. R. Francis and A. G. Trimble. Scottdale expects the Rev. H. S. Piper to be returned to this charge, where he already has served one year.

FIREMEN FEW.

With the organization of the Farmers' Protective Association of East Huntingdon township to protect farmers against trespassers, the number of people to go to the county on Sunday was greatly reduced and everything was quiet, according to reports.

LINGONFIELD GO WEST.
John and Miss Dot Lingonfield accompanied by Mrs. Jacob Wible left this afternoon for Los Angeles, Calif. to spend the winter with relatives. They were accompanied as far West as Chicago by the former's brother, Leonard Lingonfield.

65,000,000 BUSHELS OF CORN 1912 HARVEST IN STATE

Department of Agriculture Prides
Self Upon Achievement of Penn-

sylvanian's Farmers.
The State Department of Agriculture is greatly pleased with the corn prospects of Pennsylvania. Of course the farmer is never perfectly sure of any crop until it has been harvested and the latest survey, sent throughout the state, shows that the harvest of 1912 will be at least 10 per cent above the harvest of 1911.

The weather was most unfavorable during the early growth of the corn, but since that period it has done remarkably well. Some 5,500,000 acres are planted with corn and probably all will be harvested. The yield in some districts will naturally be much greater than the yield for the same average in other portions of the state.

Taking it all in all, however, there is practically no loss of acreage this year. The corn crop is exceeding the expectations of early summer. One reason for this is that farmers are learning through the State Department of Agriculture how to offset, to a certain degree, unfavorable climatic conditions. They understand now what fertilizers to use in order to obtain the best results, they have in statute books all over the state on the raising of corn, and the treatment of it; they are instructed by the Board regarding the best means of destroying all pests infesting the stalks. As a result the estimated corn crop for this year is between 64,000,000 and 65,000,000 bushels.

The quality, too, is good. There is still the possibility of floods that may work some damage in some parts of the state. The southern counties would not be affected perceptibly, but the northern, western and central counties would suffer more or less severely according to the heaviness of the frosts.

Chartered Girl Shoots at Negro.
Shortly after 8 o'clock Saturday evening a big negro entered the music store of A. H. Furlong on Ellsworth street. Chartered, and asked the clerk Miss Kathryn Collins, aged 29, for records for a talking machine. Miss Collins exhibited some records and turned away to get others when the negro grasped her around the throat and threw her to the floor. Miss Collins fought and escaped from his grasp. She ran to a desk and, snatching a revolver, fired one shot at the negro, but missed. The negro escaped.

This is one of the new belted coats, with the elongated waist line, which promises to be favored by many. A heavy double-faced cloth is used, and all the edges are bound with braid. The seams at the side extend over the shoulder and down the back as well as front, and pockets are placed between buttons. The ornamental treatment of the sleeves at the wrist is characteristic of these heavy garments.

AT THE THEATRES.

THE SOISSON.

"FRECKLES" TONIGHT.
The Morgantown, (W. Va.) Dominion speaks of the following complimentary terms of "Freckles," which comes to the Soisson Theatre, tonight: "That over popular play 'Freckles,' dramatized by Neil Twomey from the popular novel of Gene Stratton-Porter, was presented last evening in the Swisher theatre before the largest audience of the season. The S. R. O. sign of the play was displayed some time before the curtain was raised and practically every seat on the first floor was occupied. None was disappointed as the show was one of the best seen here for some time. It was complete in all details and there was not a weak character in the entire cast."

The effective work of Perry Golden as "Freckles" was the kind which touches the sympathetic side of everyone's life and his strong and forceful lines brought forth rounds of applause. His faultless acting, coupled with his highly cultured voice, were striking characteristics which made him stand out as the strongest character in the play. Ruth Gray, as "Angel," was a winsome girl who sought and won the love of "Freckles" and the clever manager in which she interpreted her part displayed accomplishments of an unusual nature. There was just a sufficient amount of humor introduced in the drama, to hold interest. Duman, the head tender of the timber camp and his wife being the chief offenders. The scenic effect was beautiful in the extreme, the first two acts depicting a portion of the Lumberland, located in the heart of a dense forest. The show seemed complete in all details and expressions of praise were heard on all sides.

Dishes "Swiped" at Southfield Party.
SMITHFIELD, Oct. 7.—At a surprise party by their friends at the home of Mr. and Mrs. W. M. V. Mayfield Friday night, in honor of the latter, some of Smithfield's undisciplined alibis in and "swiped" a bundle of dishes done up in paper. They afterward returned the dishes and set them on the porch.
